

# **Professional Statement - Kaloyan Yorgov**

My name is Kaloyan Yorgov, and I am a highly motivated cybersecurity analyst with a strong foundation in programming(Python,Java,C,SQL), teamwork, and critical thinking. I am passionate about identifying and mitigating cyber threats, including malware and various attack vectors. Through programming tasks and Capture the Flag (CTF) challenges, I continuously develop my problem-solving skills. I am driven by a commitment to protecting people and organizations, and I aim to apply my strengths to support robust security measures and innovative solutions in the cybersecurity field.
